

# **A new special school in Cheltenham**

## **Public engagement drop in event #2**

Gloucestershire County Council intends to establish a new special school on land off Arle Road, previously used by the now closed St Benedict's Catholic School. We are holding a second public engagement drop in event for residents and other interested parties. Council officers, members of the design team as well as representatives from the Academy Trust that will be running the school will be available to answer any questions.

**Location:** St George's Centre, Alstone Lane, Cheltenham, GL51 8HH  
(next to the Sea Cadet's Centre)

**Date/Time:** Thursday 2 October 2025 (3pm-6pm)

**The design process for the new school is well underway and we would like to offer an opportunity for people who live nearby, along with parents and carers of children with SEND, to review and comment on the detailed designs that will be submitted for planning approval.**

**You can find out more information about the project on the council's website, including a Frequently Asked Questions document, which will be updated as the project progresses.**
