|-----------|-------------------|--|---|---|---|--|--------------|
| 0701 | Theme 7: Planning | A suite of overarching sustainable planning policies for the county Model high level policies to be agreed by all partners and embedded within the county's Statement of Common Ground (SoCG). Proposed policies would then be adopted and adapted locally by each authority to include in their Local Plans as per the respective Local Development Schemes. | Agree a framework of climate change policies for consideration by CLG towards the end of 2024 to allow for consideration alongside news on proposed planning reforms. These policies to developed once and shared with all partners to aid them in their local plan development, local variance would allow setting of the correct metrics or standards to ensure the viability of these policies within each local plan and in line with achieving the overarching ambitions. | Theme lead, CLG, CPOG, CLOG | Year end 2024 | This is the top level priority - approved by CLG and will be progressed asap based on the draft policies developed by Cotswold DC. The majority of LPs aiming for completion by end of 2026. Draft policies to be reviewed and developed over the coming year with assistance from the new Planning and Climate Manager and with best practice support from outside of the county. | Yellow |
| 0702 | Theme 7: Planning | A central climate planning office/officer/expert A shared resource focused on sustainable planning with experience in climate change and planning who can exclusively lead the delivery of climate/net zero evidence and policies to build capacity, improve knowledge and aid delivery of climate mitigation and adaptation planning policies and strategies. | Recruitment of a centralised resource to coordinate activity, share best practice and draft and review policies. | Theme lead, CLG, CPOG, Countywide Coordinator | Secure funding/resource by the end of Q2 2024 | Funding for the post agreed and recruitment undertaken. Post holder expected to start in November. | Green |

| | | | | | | | |
|------|--------------------------|--|---|---|---|---|--|
| 0703 | Theme 7: Planning | Sharing work on evidence and best practice Local best practice sharing already happening via the County Planning Officers Group and Climate Officers Group. Further work is needed to extend to proactive engagement in national forums seeking to both learn from others and share our own best practice. | Continued sharing of best practice through regular County Planning Officers Group and the setup of a shared document space (both already in action). Further work on collating best practice and shared evidence as well as proactive external engagement will likely be dependent upon bringing in specialist resource. Maximise consultant expertise and stop duplication. Build further plans to integrate evidence. Enable open access of evidence. Investigate the strengths and opportunities of AI | Theme lead, CLG, CPOG, CLOG, Requests now live for further officers to lead this strand. | Following recruitment of shared resource. | A multi-disciplinary workshop was held on 2nd April 2025 with input from the Town and Country Planning Association, this brought together planning policy, planning development management and climate change officers to: -share best practice -identify challenges/blockages identify areas of collaboration. The evolving workplan being developed by officers across Councils will be integrated with this workplan in advance of review at the November meeting of CLG. | |
| 0704 | Theme 7: Planning | Training for officers This would be cross-council training open to all authorities and would ensure that planning teams are confident, consistent and able to assess evidence of compliance with sustainable planning policies. | First action to undertake a gap analysis (questionnaire) to establish current skills and knowledge across the local planning teams. Aiming to build officer capacity and confidence; better linking of teams; and building on existing strengths within these teams. | Countywide Climate Change Coordinator, CPOG, Requests now live for further officers to lead this strand | delivered by end of Q2 2024. | Gap analysis asap. Next steps would then be dependant upon shared resource. Cheltenham have taken some steps here- climate change officers led a training session (24/9/24) with the Cheltenham planning team, property and major projects teams. This used case studies tested against the Cheltenham Climate Change SPD. The Climate Change team are monitoring key applications against the SPD so that we develop a body of evidence and | |

| 0706 | Theme 7: Planning | Influencing Government The benefit of the CLG community is its ability to work as a community/in partnership including on upwards influencing. This action is focused on sharing resources to ensure representation from Gloucestershire in national planning forums, identifying best practice and collaboration on influencing future government planning policy, including via bodies such as the LGA and DCN | Actions to include: - prepare draft consultation response for authorities to respond to the Future Homes Standard consultation. | Countywide Climate Change Coordinator, CLOG | Future Homes Standard consultation deadline - Wednesday 6 March 2024. | Latest engagement with Government includes: 1. Response to future Homes Standards Consultation March 2024. 2. Response to NPPF Consultation September 2024 - in support of onshore wind being re-integrated into the NSIP regime. 3. Reply to Barriers to community energy - call for evidence June 2024. 4. Proactive engagement in national workshop to consider emerging Regional Energy Strategic plan design and Council roles June 2025. 5. Response to Biodiversity Net Gain consultation July 2025 - in favour of Biodiversity Net Gain for minor, medium and brownfield development. 6. Response on community benefits and shared ownership for low carbon energy infrastructure consultation September 2025 - in support of mandatory community benefits. | |
