Dear Ms Parker

Please note that Mr Cullimore will not be attending the Examination Hearing on 31 January 2012.

However, he would like the following note passed to the appropriate person involved please.

Provision should be made for core waste construction materials and spoil from Greenfield sites. Currently this type of tipping is taken to the Cotswold Water Park to gravel pits, Abbotts Court Farm, Twyning, Tewkesbury and a limited amount for restoration projects at Frampton gravel pits. Further provision is needed for the future, which we have indicated previously. Kevin Phillips would be aware of this from attending the South West Regional Aggregate Party.

With regards,

Barbara Wood

Dear All

Please find attached the Notes of the Pre-Hearing meeting which took place on Tuesday 22nd November.

I have also attached the updated timetable and the Inspectors updated questions and a note regarding the submission of the

statements and I would appreciate it if you would read that note carefully and come back to me if you anticipate any problems with the electronic submission of documents. Please NOTE that I require 4 HARD COPIES of the statements to be with me **on 5<u>th</u> January 2012.** I do not consider that documents have been submitted until I receive the hard copies which should be posted to me BEFORE the electronic versions are sent to me.

If you have any questions please do not hesitate to contact me.

Kind regards

Yvonne Parker
