

Inspector's Agenda and Supplementary Questions: Issue 7

Agenda

- 1 Opening remarks
- 2 The written representation by Cheltenham Borough Council (CBC) (CD13.40.1)
- 3 The main modifications that the Council wish to be recommended in my report.

Having read the further submissions the following questions need to be addressed by the Council, and others as appropriate, **at the Hearing session. Unless specifically requested by the Inspector via the Programme Officer, no further written statements should be supplied in response and any that are will be returned by the Programme Officer.**

Agenda Item 2

1. In relation to matters for this examination CBC appear to be concerned with the 'technology neutral' stance of the plan. We will have discussed this under Issue 3; is there anything further that the Council wish to add?

Agenda Item 3

1. The schedule in CD13.17 will need to be altered both in the light of the Localism Act and the discussions that will have taken place at the hearing sessions.
